Robu Iosif Darius

Junior Quantitative Analyst & AI-Augmented Developer

About Me

Second-year Economics student at UBB FSEGA specializing in bridging the gap between economic theory and digital innovation. I leverage advanced AI-augmented engineering workflows to build faster, cleaner, and more efficient products.

Personal Portfolio

Language

- Romanian - Native
- English - Fluent

Education

(2024 -2027)

UBB CLUJ FACULTY OF ECONOMICS AND BUSINESS ADMINISTRATION

Bachelor of Economics

Experience

(2025 -PRESENT)

LEAD DEVELOPER (AI-AUGMENTED ENGINEERING) | INDEPENDENT PROJECTS

- **Lora (AI Personal Assistant): Feature this as a prime example of your LLM integration skills. Emphasize the use of AI Automation and Telegram Bot API to create a functional, real-world utility.**
- **<DevR> (SaaS Agency Management): This is a heavy hitter because it shows you can build for a specific market (freelance teams). Mention features like workflow management and the tech stack used to solve business pain points.**
- **Classily (Cross-Platform App): Application to help students manage schedules,attendance and grades. Added a note-taking feature for texting and drawing to enhace the productivity of users.**

Skills

- SwiftUI & SwiftData
- Flutter & Dart
- HTML & CSS
- Javascript
- Python
- Microsoft Excel
- AI-Augmented Engineering
- Prompt Engineering
- Business Analysis
- Social Media Marketing

(October 2025 – December 2025)

BUSINESS DEVELOPMENT INTERN | I-LAB INCUBATOR PROGRAM (UBB STUDENT I-LAB)

- **Strategic Growth**: Mentored by business leaders (including John Coughlan and Sandu Babasan) to define product-market fit and validate business hypotheses for the "Classlly" application.
- **Stakeholder Pitching**: Successfully presented technical prototypes to investors during "Demo Day," pivoting product features based on direct investor feedback to increase market readiness.
- **Financial Planning**: Applied economic reasoning to create comprehensive business plans, financial models, and Business Model Canvases using Microsoft Excel.
- **Industry Engagement**: Participated in high-level strategic sessions with global tech leaders, including Yossi Matias (VP of Google), to discuss innovation and the future of AI research.
